

PROJECTOR USAGE

Cable connections

Thin cable – primary projector closer to the screen (this is the newer, high resolution projector). Native resolution: 1024 x 768.

Thick cable – secondary projector (intended use as a backup unit). Native resolution: 1024 x 768.

ON/OFF

Please, **DO NOT** use the wooden pointer or any other object to start/stop projectors.

See Sheela or Elsy in 26-505 to sign out the appropriate remote control.

If you require further technical assistance, contact Dave at 3-6943.

Thanks.
